Overview and important information

Thank you for registering to your Online Exam provided in collaboration with the exam sponsor, Yardstick and ProctorU.

Please go through this entire Guide before your exam session. This will help you familiarize yourself with the examination interface and assist you to connect to your proctor on the day of your exam. Please note that the ProctorU platform is currently offered in English only. A French version of this Guide is available. Support in French (chat and help line) is available on request.

Test takers that do not follow the steps below, as well as the troubleshooting steps outlined in [Appendix A](#) in case of technical difficulties, will not be given any consideration with regard to exams reschedule or retakes.

Test takers late for their examination will not be given any consideration for exam retakes under any circumstances.

Before the exam day, please make sure you have completed the following:

- o Download or print a copy of this Guide.
- o Confirm to be able to log-in to your account. Keep your username and password in a safe location, readily available on the day of the exam.
- o Test your microphone and webcam.
- o Have the latest version of Google Chrome browser and Adobe Flash.
- o Confirm your computer passes the Automated System Check. It is available on your exam portal, where exams are listed (see below).

- o Confirm you are registered for your exam and review the date and time of your exam before the registration deadline.
- o Use the exam tutorial to ensure you are comfortable with the platform. You can do this as many times as you want; the results are not taken into account.
- o Install ProctorU Extension for Google Chrome. There is no need to sign in or create an account at this stage, as it will be taken care of on the day of the exam.
- o If you are using a work computer or a computer with restricted access, ensure that you can install third-party software. During the connection process, you will be required to install the Logmein Rescue software which will put you in contact with your proctor.

- Practise the steps in Part 1 of this Guide.
- Review the allowable material (as described in [Appendix C](#)) and have prepared your material ahead of time.
- Review the ID requirements in [Appendix B](#). Using a passport is recommended for a quicker and smoother authentication process.
- Test your internet connection speed using a service such as [speedtest.net](https://www.speedtest.net), and confirm that you have at least 5 Mbps. Any speed lower than 5 Mbps may cause the connection with your proctor to be unstable. Ensure to test your connection at a time similar to when you will take your examination, so that you may test it against similar traffic conditions.

On the day of your exam, before your exam starts, ensure the following:

- Log in to your account at least **15 minutes** before your exam starts. This will ensure you have enough time to troubleshoot any issues or seek help if required.
- Have access to a telephone to contact ProctorU in case you are experiencing connectivity issues: **+1 (855) 772-8678** (in English only).
- Complete the Automated System Check once again to make sure your system is up to date.
- Use a stable internet connection (wired connections are better than wireless/Wi-Fi connections).
- Have a copy of this Guide to help you connect to your proctor.
- Complete the steps in [Part 1](#) of this Guide and wait to start [Part 2](#).
- Have a government-issued photo ID with your full name and date of birth. A passport is highly recommended to facilitate the process. Refer to [Appendix B](#) regarding the ID Requirements.
- Use only one monitor; any additional monitors must be disconnected and stored away from your desk.
- Disable your browser's [pop-up blocker](#).
- Clear your desk of all material (phones, tablets, scrap papers, etc.), except for the allowable material (see [Appendix C](#)).

The "Launch exam" button will only appear at your exact start time. A countdown will indicate the time left before the exam is made available. If you still cannot launch the exam once the countdown reaches "0", "Refresh/Reload" the page in your browser.

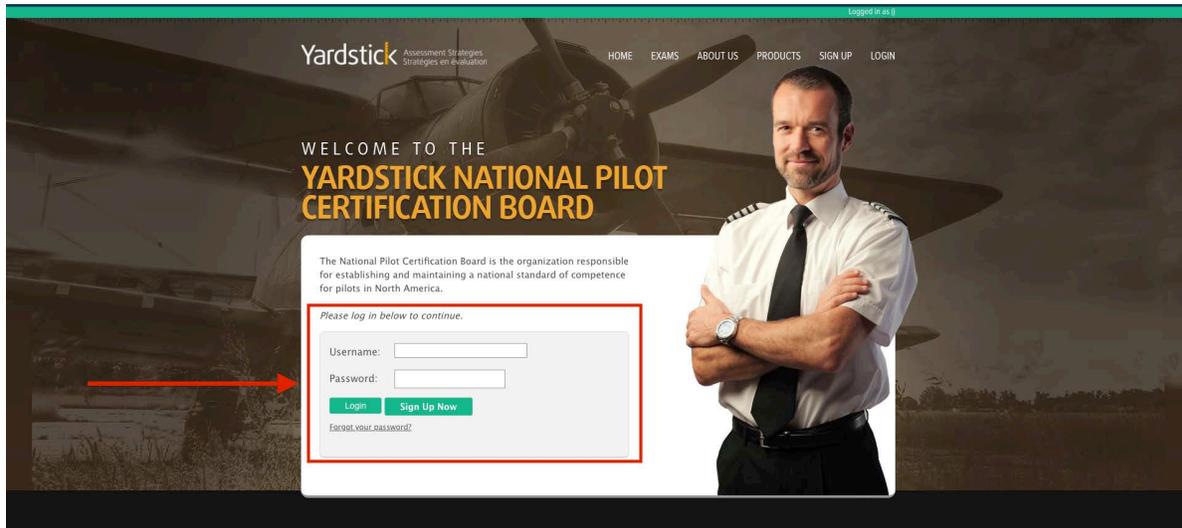

If you are experiencing issues, it is important to immediately contact ProctorU for support. You have limited time to connect to your proctor before the system marks you as a "no-show" for your exam. Please refer to [Appendix A](#) for troubleshooting steps.

If you are experiencing difficulties connecting to your proctor, please first ensure that:

- You are not late for your exam (15 minutes or more after scheduled start).
- You are not early for your exam (you cannot access your exam before the scheduled start time).
- Your booked time is in the correct time zone.
- Your booking is at the right time (check for 12/24-hour format, AM/PM)
- You are logged into the correct profile.
- You are not trying to access the right exam (you are not trying to access the tutorial exam).
- You are using the latest version of the Google Chrome browser.
- You have completed all the steps in Part 1 of this Guide.

If you are still experiencing difficulties despite the checklist above, please redo the **Automated System Check** once again, and take a screenshot of your complete desktop showing that all system checks are ok. Your screenshot must include the date and time on your computer.

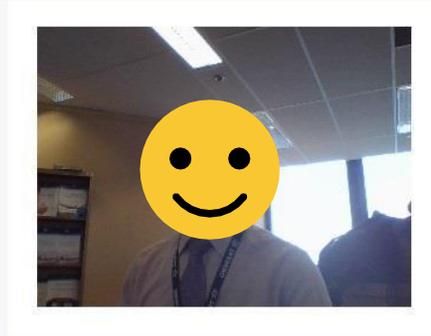

On the bottom of the test page, there is an option for chatting live with a Technician. You must first contact ProctorU via direct chat, and if this does not work contact them by phone. The ProctorU agents will help you troubleshoot your issues and connect to your proctor.

If the ProctorU agent is unable to assist you:

- For chat support—request an email copy of your transcript.

Appendix B—ID Requirements

In order to start your examination, a valid form of identification will have to be shown to your proctor via the webcam. The following forms of identification are accepted, in order of most preferred/easiest to validate:

- International Passport;
- Government ID with photo & full name in Roman characters, e.g.:
 - Driver’s Licence,
 - Health Care Card,
 - National Identification Card;
- Driver’s Licence with photo & full name in non-Roman characters and an accompanying International Driver’s Licence card;

- Government ID with Photo & Full Name in non-Roman Characters (will need to be validated);
- Test taker ID Card with Photo & Full Name and matching Birth Certificate.

The most internationally recognized form of identification is the International Passport. Therefore, the use of a passport for your ID check during your examination will help make the ID verification process a more rapid and pleasant experience.

If you do not have a passport or it is no longer valid, a government ID with your full name in Roman Characters is preferred. This would allow the proctor to identify more quickly the test taker. Otherwise, an International driver’s licence card can be used in conjunction with a Driver’s Licence in non-Roman Characters.

Appendix C—Allowed Material

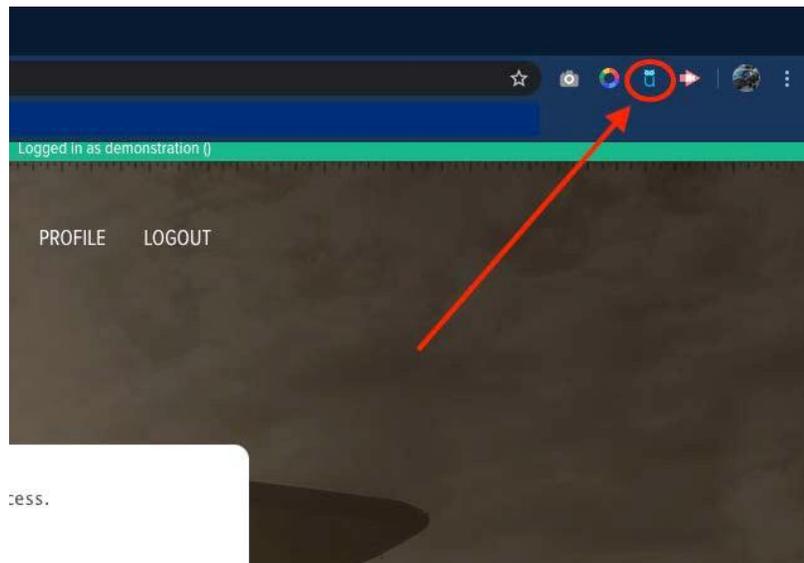

Please contact the exam sponsor to know the list of allowed materials for the exam.

Use of unauthorized materials will invalidate the exam and you will need to redo the exam, if offered. The consequences of the use of unauthorized materials are defined by the exam sponsor.

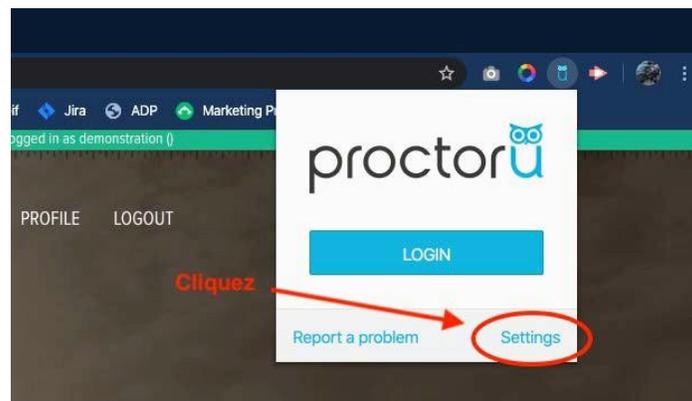

Appendix D—Uninstall ProctorU extension

Once you have completed your exam, you can uninstall the ProctorU extension on your Google Chrome browser using the following steps:

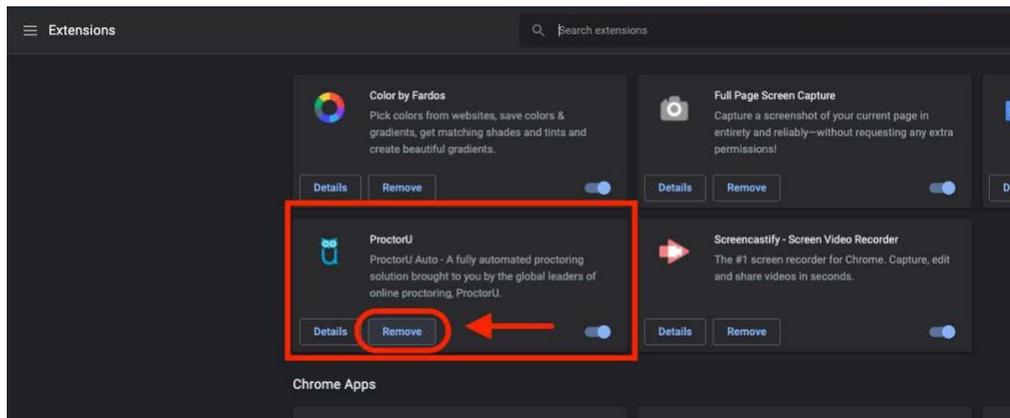

1. Click the ProctorU logo (owl's head on top of the letter "U") on the right portion of the address bar.

2. A pop-up window will appear. Click on "Settings".

3. A new tab will open on which shows the list of all installed extension on your browser. Find the one for ProctorU, and then click on "Remove".

4. A last pop-up window will appear asking you to confirm the removal of the extension. Click on "Remove".
