Meazure Learning – Exam Platform Features

Below we have listed the “feature” buttons on the CLPNA – HCA exam platform, and what those buttons do for the candidates during their examinations.

	Previous	This button allows the candidate to go to the previous question.
	Next	This button allows the candidate to go to the next question.
	Bookmark	This enables the candidate to bookmark or flag the question for review at a later time during the exam.
	Notepad	This is the ‘Online scrap paper’ feature. This enables the candidate to use electronic notes for their assessment.

	Pause	This enables the candidate to pause the quiz mid exam (this feature does not allow the candidate to move forward or keep reading the current question while paused). *NOTE: This is only available in un-proctored examinations.*
	Submit	This enables the candidates to submit their examination once they are confident in their answer selections.
	Show Questions	Filters the question display box by the type of questions or question state.
	Show All Questions	Filters the question box to show all questions regardless of the status.
	Show Bookmarked Questions	Filters the question box to show only bookmarked questions.
	Unanswered Questions	Filters the question box to show only unanswered questions.
	Question Box - Answered	This example is to show how the question button should appear once answered. (MAKE THIS THE THIRD EXAMPLE STATE – USE THE SAME QUESTION NUMBER)
	Question Box - Current	This example is to show how the question button should appear once selected. (MAKE THIS THE THIRD EXAMPLE STATE – USE THE SAME QUESTION NUMBER)
	Question Button - New	This example is to show how the question button should appear if it is not selected or answered. (MAKE THIS THE THIRD EXAMPLE STATE – USE THE SAME QUESTION NUMBER)

▲ Hide question list	Hide Questions	This enables candidates to hide the list of questions section of the interface.
Font Size: A A	Change Font Size	This enables candidates to change the font size of the platform to their preferred size.
